

Coronavirus (COVID-19) update

Crushes Manor Clinic is now open for virtual and face to face appointments.

Please be assured that we have strict operating guidelines in place regarding contact with patients and cleaning protocols in line with the Chartered Society of Physiotherapy and Public Health England.

You will be asked some risk assessment questions by the receptionist when you first make contact and, if necessary, a telephone or video triage may be undertaken with a physio prior to booking a face to face appointment.

Please be assured that this is for your safety as well as that of the physio and other members of the public.

If you would prefer a virtual video appointment, these can still be offered and will be charged at reduced rates.

We can also offer help with pain medication – see Pain Management Service information on our website.

Please call 01277 375955 now to book your appointment.

We continue to urge you to follow the government's advice and ask that do not visit the clinic if you are/have been suffering from any Covid-19 symptoms in the past 7 days, have been in contact with anyone who has Covid-19 symptoms in the past 14 days or are generally feeling unwell.

We wish you all well and please stay safe.
